Code Giao Diện Đăng Nhập HomeMate

https://gemini.google.com/app/f76711a2bede6e71

User prompt: Hãy viết code HTML và Tailwind CSS (hoặc CSS thuần) hoàn chỉnh, responsive cho màn hình đăng nhập này. Yêu cầu: Tất cả các thành phần như nút "LOG IN", ô nhập EMAIL, các tab "Household Owner" bắt buộc phải là các thẻ , <button>, <input> riêng biệt, có style bo góc và màu sắc rõ ràng. Không sử dụng ảnh chụp phẳng hay gộp cụm.

Response: Dưới đây là mã HTML đầy đủ tích hợp **Tailwind CSS** (qua CDN) tái hiện chính xác giao diện giao diện đăng nhập **HomeMate AI** theo hình ảnh mẫu của bạn. Tất cả các thành phần (nút bấm, ô nhập liệu, thẻ tab, logo, v.v.) đều được xây dựng bằng các thẻ HTML tiêu chuẩn, bo góc và phối màu chuẩn xác.

                class="w-full py-3 px-4 bg-brand-blue hover:bg-blue-600 text-white font-bold text-xs tracking-wider uppe
            >
                LOG IN
            </button>

        </form>

    </div>

</body>
</html>
```

Các điểm nổi bật trong đoạn mã:

1. **Cấu trúc linh hoạt (Flexbox & Grid):** Đảm bảo tính responsive, cân đối chính xác trên mọi thiết bị di động cũng như máy tính.
2. **Thành phần độc lập:**
    - Logo được dựng hoàn toàn bằng `<div>` và `<span>`.
    - Vai trò lựa chọn (**Household Owner** & **Crew Leader**) sử dụng thẻ `<button>` riêng biệt với trạng thái viền sáng chuẩn màu `Active`.
    - Các trường nhập liệu sử dụng thẻ `<input>` có hiệu ứng focus mượt mà.

3. **Màu sắc & Typography:** Sử dụng mã màu trùng khớp với thiết kế gốc (`#1E64FF` cho tông màu xanh chủ đạo, bo góc `rounded-lg` cho nút/input và `rounded-2xl` cho khung form).

User prompt: my sign up looks like this as well so ye...

Response: Dưới đây là đoạn mã HTML & Tailwind CSS tích hợp đầy đủ cả 2 màn hình **Sign In** và **Sign Up** có thể chuyển đổi linh hoạt qua lại bằng JavaScript đơn giản (không cần reload trang):

Các cập nhật cho giao diện Sign Up

:

1. **Nút "CREATE ACCOUNT":** Khi bấm vào tab **Sign Up**, liên kết *"Forgot Password?"* sẽ ẩn đi và nút chính chuyển thành nút bấm **CREATE ACCOUNT** màu xanh dương như trong thiết kế.
2. **Chọn Role linh hoạt:** Cả 2 nút "Household Owner" và "Crew Leader" đều có thể nhấp chọn để thay đổi kiểu dáng tương tác active/inactive.

User prompt: Write fully structured HTML and Tailwind CSS code to recreate this complex construction management dashboard called "HomeMate AI - Overview dashboard" based on the attached image. Critical Layout Rules for Figma Import: 1. Divide the layout into two main structural columns: A fixed-width left Sidebar (250px) and a flexible Main Content area on the right.2. Inside the Main Content area, wrap the content inside a vertical flex container. Use a grid layout for the metrics cards at the top (Total budget, Stage 3, Active workers, Budget status). 3. The sections "Construction Stage Progress & Timeline" and "Budget Threshold & Overrun Warning" must be two separate, independent column boxes placed inside a 2-column layout grid. 4. "Recent Expense Records" and "AI Assistant Quick Insights" must be independent modular containers. 5. All texts, table row contents (Date, Category, Amount, Status badges like "Paid", "Pending"), charts, and progress bars must be created using semantic, standalone HTML tags (like <table>, <tr>, <td>, ,) with absolute clear borders or padding. Do not use complex SVG graphics for grids or group layout blocks into a single container. Everything must be deeply nested and modular.

Response: I will now generate the complete, responsive HTML file containing the HomeMate AI Overview Dashboard code using Tailwind CSS and inline SVG icons to match the design.

---

*User prompt: Design a clean, professional, WCAG AA compliant UI mockup for a web application screen titled "HomeMate AI - Expense & Material Management" (UC-F01).(use similar coding language) Requirements & Layout Context: - Style & Theme: Modern SaaS web app, light background (#F8FAFC), clean typography, matching the style of the main overview dashboard (navigation sidebar on the left, top header with project selector and profile "Alex Lawson - Household Owner"). - Active Menu: In the left sidebar, highlight the "Expense Tracker" navigation item (active state with blue accent). Page Content Structure: 1. Header Section: - Page Title: "Expense & Material Management" - Subtitle: "Track construction expenses, material purchases, and vendor payments." - Action Buttons: "+ Add New Expense" (primary blue button), "Export CSV" (secondary outline button), and "Filter by Date/Category". 2. Top Metric Cards (4 Summary KPI Cards): - Card 1: Total Spent ($45,000 / $60,000 Budget) with a visual progress bar (75%). - Card 2: Materials Expense ($28,500 - 63% of total). - Card 3: Labor & Equipment ($16,500 - 37% of total). - Card 4: Pending Receipts / Invoices (2 Pending Items totaling $2,200). 3. Main Data Table (Expense & Material Log): - Table Columns: Date, Category (Materials, Labor, Equipment), Item / Vendor Description, Quantity & Unit, Total Amount ($), Payment Status (Paid [green tag], Pending [yellow tag]), and Actions (Edit/View Receipt). - Sample Rows: * Oct 28, 2026 | Materials | Reinforcement steel - 5 Tons | $2,450.00 | Paid * Oct 27, 2026 | Labor | Framing crew - Week 6 | $1,800.00 | Paid * Oct 26, 2026 | Equipment | Concrete mixer rental - 3 Days | $350.00 | Pending * Oct 25, 2026 | Materials | Ready-mix concrete - 20 m3 | $3,200.00 | Paid 4. Sidebar / Bottom Widget: - "AI Material Price Insight" Card: A notification box stating: "Reinforcement steel prices increased by 4% this week. Consider bulk ordering for Stage 4 early to save ~$800." Generate a high-fidelity visual UI design mockup based on these exact parameters.*

Response: I will now generate the complete, high-fidelity, WCAG AA compliant single-file HTML page for **HomeMate AI - Expense & Material Management (UC-F01)** using Tailwind CSS.

It includes the fixed 250px left sidebar with "Expense Tracker" highlighted as active, 4 key KPI metric summary cards, an Expense & Material data table with search, filters, pagination, and status badges, along with the AI Material Price Insight card and Expense Breakdown module.

---

*User prompt: Design a clean, modern, WCAG AA compliant UI mockup for a web application screen titled "HomeMate AI - Construction Stage Planning" (UC-F02). Requirements & Layout Context: - Style & Theme: Modern SaaS web application, light background (#F8FAFC), clean typography, matching the exact visual style and header structure of the Overview Dashboard (left navigation sidebar, top bar with project "Modern Villa Renovation" and user "Alex Lawson - Household Owner"). - Active Menu: In the left sidebar, highlight the "Construction Schedule" item (active blue state). Page Content Structure: 1. Header Section: - Title: "Construction Stage Planning & Schedule" - Subtitle: "Track timeline progress, manages construction stages, and receive AI optimizations." - Action Buttons: "+ Add New Task", "View Gantt Chart", and "AI Schedule Optimization". 2. KPI / Summary Cards (Top Row): - Card 1: Current Stage -> "Stage 3: Foundation & Structure" (In Progress - Week 6 of 16). - Card 2: Overall Progress -> "38% Completed" with a circular or linear progress bar. - Card 3: Schedule Health -> "On Schedule" (Green badge, 0 Days Delayed). - Card 4: Upcoming Milestone -> "Electrical Inspection (Nov 07, 2026)". 3. Main Content Area (2-Column Layout): - Left / Main Section (Stage Progress & Gantt/Timeline View): * Stage 1: Site Preparation & Excavation (100% | Completed | Sep 15 - Oct 04) * Stage 2: Foundation (100% | Completed | Oct 05 - Oct 19) * Stage 3: Structural Framing (60% | In Progress | Oct 20 - Nov 08) * Stage 4: Electrical & Plumbing (0% | Upcoming | Nov 07 - Nov 20) * Includes clear progress bars, status tags (Completed [green], In Progress [blue], Upcoming [gray]), and assigned contractor tags. - Right Section (AI Schedule Insights & Risk Alert Widget): * Card Header: "AI Schedule Optimization & Recommendations" * Insight 1: "Framing phase is 60% complete and on track. Recommend confirming Electrical Crew by Nov 03 to prevent idle handovers." * Insight 2 (Weather Alert): "Rain forecast for Nov 04-05. Consider completing roof framing sealing prior to Nov 04." * Action Button: "Apply AI Recommendations" (Primary Blue Button). Generate a high-fidelity web mockup based on these exact specifications.*

Response: I will now generate the complete, high-fidelity, single-file HTML & Tailwind CSS web application mockup for **HomeMate AI - Construction Stage Planning (UC-F02)**.

It includes the fixed 250px left sidebar with "Construction Schedule" highlighted in active blue, 4 summary KPI metric cards, an interactive stage timeline with expandable subtasks and contractor tags, an AI Schedule Optimization & Weather Alert widget, view switchers (Timeline vs. Gantt), and interactive filtering.

Key Highlights & Features Included:

1. **Design System Consistency:** Matches the exact color palette, navigation header, fixed 250px left sidebar, and typography of the HomeMate AI Overview & Expense screens.
2. **Interactive Stage Breakdown:** Features expandable subtasks with stage completion indicators, contractor tags, and status badges (Completed, In Progress, Upcoming).
3. **Interactive Gantt Switcher:** Users can toggle between the standard Timeline view and a Gantt Chart view directly via the header action button.
4. **AI Optimization & Weather Alert Widget:** Houses actionable AI suggestions for crew scheduling along with a prominent high-contrast weather risk alert.
5. **WCAG AA Compliance:** High-contrast text labels (contrast ratios > 4.5:1), visible keyboard focus states, clear badge background contrasts, and semantic HTML layout tags (`<main>`, `<aside>`, `<nav>`, `<header>`).

---

*User prompt: Design a clean, modern, WCAG AA compliant UI mockup for a web application screen titled "HomeMate AI - Attendance & Wage Calculation" (UC-F03). Requirements & Layout Context: - Style & Theme: Modern SaaS web application, light background (#F8FAFC), clean typography, perfectly matching the visual style and header structure of the Overview Dashboard (left navigation sidebar, top header with project "Modern Villa Renovation" and user "Alex Lawson - Household Owner"). - Active Menu: In the left sidebar, highlight the "Worker Attendance" item (active blue state). Page Content Structure: 1. Header Section: - Title: "Worker Attendance & Wage Calculation" - Subtitle: "Track daily worker presence, verify check-in logs, and calculate automated weekly wages." - Action Buttons: "+ Mark Attendance", "Export Payroll (PDF/CSV)", and "Date Selector (Oct 22 - Oct 28, 2026)". 2. Top KPI / Summary Cards (4 Cards Row): - Card 1: Total Workers Today -> "6 Workers On-Site" (4 Contractors, 2 Specialists). - Card 2: Weekly Wage Estimate -> "$1,800.00" (For current week 6). - Card 3: Attendance Rate -> "95%" (Up +2% from last week). - Card 4: Pending Overtime Approvals -> "2 Requests Pending" ($150 total). 3. Main Data Table (Daily Attendance & Payroll Sheet): - Search & Filter Bar: Search by worker name/role, and filter by status (Present, Absent, Half-day). - Table Columns: Worker Name, Role / Crew, Check-In / Out Time, Daily Rate ($), Worked Days (This Week), Total Calculated Wage ($), Attendance Status, and Actions. - Sample Rows: * Tran Van Nam | Mason Lead (MasterBuild Crew) | 07:30 AM - 05:00 PM | $50.00/day | 6 Days | $300.00 | Present [green tag] | View Details * Nguyen Van B | Structural Carpenter | 07:45 AM - 05:00 PM | $45.00/day | 6 Days | $270.00 | Present [green tag] | View Details * Le Van C | Electrician Specialist | 08:00 AM - 05:00 PM | $55.00/day | 5 Days | $275.00 | Present [green tag] | View Details * Pham Van D | Helper / Laborer | -- : -- | $30.00/day | 4 Days | $120.00 | Absent [red tag] | Approve Leave 4. Right Sidebar / Bottom AI Assistant Widget: - Card Title: "AI Payroll & Attendance Insight" - Content: "MasterBuild Crew completed 100% scheduled hours for Stage 3 framing. Total estimated weekly payout of $1,800 matches the budget allocation. No wage overrun detected." - Action Button: "Approve Weekly Payroll". Generate a high-fidelity web mockup based on these exact specifications.*

---

*User prompt: Design a clean, modern, WCAG AA compliant UI mockup for a web application screen titled "HomeMate AI - AI Contextual Assistant Chat" (UC-F04). Requirements & Layout Context: - Style & Theme: Modern SaaS web application, light background (#F8FAFC), clean typography, perfectly matching the visual style and header structure of the Overview Dashboard (left navigation sidebar, top header with project "Modern Villa Renovation" and user "Alex Lawson - Household Owner"). - Active Menu: In the left sidebar, highlight the "AI Assistant" item (active blue state). Page Content Structure: 1. Header Section: - Title: "AI Contextual Assistant" - Subtitle: "Ask questions, analyze material costs, optimize construction timelines, and generate smart insights for your active project." - Action Buttons: "Clear Chat History", "Project Context: Modern Villa Renovation [Active]", and "Export Chat Log". 2. Main Chat Interface (Split Layout or Centered Chat Workspace): - Left Panel / Quick Context Panel (Project Data Snapshot): * Current Stage: Stage 3 (Foundation & Structure - 60%) * Total Spent: $45,000 / $60,000 * Quick Suggested Prompts (Clickable Cards): - "Summarize remaining budget for Stage 4" - "Check if reinforcement steel price is optimal" - "Draft weekly report for Crew Leader" - Right / Main Panel (Interactive AI Conversation Window): * User Message (Alex Lawson - 10:15 AM): "Hi HomeMate AI, can you check if our current spending on steel and concrete is still within the budget limit for Stage 3?" * AI Response (HomeMate AI - 10:15 AM): "Hello Alex! Based on your uploaded receipts for **Modern Villa Renovation**: 1. **Reinforcement Steel:** You spent $2,450.00 (Oct 28), which is **3% under the estimated allocation**. 2. **Ready-mix Concrete:** You spent $3,200.00 (Oct 25), exactly matching stage benchmarks. 💡 **Summary:** Your total Stage 3 material spending is currently **$5,650.00**, leaving a healthy cushion of **$1,350.00** before reaching Stage 3's limit ($7,000). You are on track!" *(Includes action buttons under response: "Save to Insights", "Copy Response", "Ask Follow-up")* 3. Bottom Input Bar: - Text Area Placeholder: "Ask HomeMate AI anything about budget, workers, schedule, or material prices..." - Tools / Icons: Attachment icon (Upload receipt/blueprint), Voice input mic icon, and Send button (Primary blue with arrow icon). Generate a high-fidelity web mockup based on these exact specifications.*
